## COMPLAINT WITH JURY DEMAND

### INTRODUCTION

This is a Civil Rights action filed by ERIC ANDREW PEREZ for damages and Injunctive Relief under the Federal Constitution of the United States of America and NY State Constitution for continual deliberate & depraved Constitutional Torts & deprivation/suspension of claimants Civil

Rights. The Plaintiff was born a slave; disenfranchised since birth by a combination of government; private companies; wealthy individuals as part of an engineered ever evolving plot to manipulate society through a 'Coercive Population Control Program' which has the Plaintiff and his children's oppression at the center of it. The Plaintiff and his children are at the center of a multi-million dollar saga that uses thousands of government and private actors, and millions of dollars in government/private funds.

The saga which has been written with the end of the world or at least another World War as the end goal uses the plaintiff as a straw man; his children; his relatives; friends; associates; and others who I am falsely associated with as actors who make moves in a live interactive game that takes place each day which places the plaintiff and his children in high levels of danger on a daily basis. The manipulation of our environment is actually controlled by the illegal commercialization of our lives that are at the center of a huge gimmick in the record and entertainment industry in order to sell records; increase listenership of local & satellite radio stations; internet radio; television; periodicals; and any other form of media that can be used to control the various designation groups in society.

Each day plots are arranged by different private and government actors in order to intimidate, harass, annoy, inconvenience the plaintiff and his children. Some actors are used to carry out the plots and others are charged with the prevention of the plots. This plot depends on the mass manipulation of the population which inherently means that my environment is deliberately engineered to be hostile to the plaintiff and his children. The saga includes the precalculated death of the plaintiff and his children as well. Some of the plots include car accidents, drownings, staged suicides, poisoning, or just plain driving the plaintiff and his children insane.

This saga has been commercialized on every single media outlet imaginable. Music, television, periodicals, etc. This saga relies on a system that is deliberately designed to violate constitutional rights ; essentially enforcing a system which deliberately countermands the written federal & state laws of

each state. This system is a system that is also designed to generate revenue through enslavement of the human population; namely the mass incarceration of the poor. The system relies on making people sick in order to generate revenue. The goal of this is to have every single person in this country and other participating countries under the color of law or in otherwise under the control of the government. The only way to profit in illegal or legal society is to be seen as a friendly to the government or a faction of one.

The government of the United States through multiple actors in Collusion with multiple wealthy private entities and actors have The government of the United States has declared the Plaintiff, his children targets to torture and dispose of and is using the various State & Private entities in order to engineer the populous of every geographical area of these United States through the use of a 'Coercive Population Control Program'; which has been designed in order to deprive one of civil rights through the manipulation and control of their environment.

Every person the plaintiff has known is actively participating in this; to include the persons who are falsely associated with the plaintiff. The 'Program' uses a variety of means in order to manipulate the population against its targets such as popular entertainment programming distributed through radio stations and cable television stations. The 'Program' also uses elements of the MK Ultra Behavioral Modification Program to manipulate the Plaintiff, the local populaces' behavior to include local jails & prisons. This system also relies on a system of numbers; letters; terms; colors that I simply call phonetics in order to manipulate the populous; make announcements of events etc. My life is an interactive game under the orchestration of people known and unknown to me.vThe State namely: the Religious Organizations, Special Investigation Unit run by Local Sheriff's Departments, NSA, FBI, Department of Justice and other agencies use warrant-less electronic & physical surveillance of the targets in order to incorporate the information into radio & television broadcasts in order to cause the deliberate continual defamation, calculated harassment, and otherwise inconvenience of the targets by

the illegal commercialization of their lives. Each geographical area of the country is in total control of the government through the use of various controls to include radio and television. The state also facilitates the leak of the targets private information to include: photographs, classified information, family ties, friends, known associates, work history, criminal records, and contrived information. This conspiracy involves a continual and ever evolving plot making the claimants' lives an interactive game run by governmental entities.

Claimants assassination and prevention of has been made an interactive game played by the local populace to include various law enforcement agencies and threat groups all orchestrated by the government of the United States in one form or another. This system relies on rules, laws, and a written saga that have been made contrary to state Penal, CPL codes, and Federal USC Codes in order to create an interactive system of organized chaos in order to target people, creating a false economy which provides law enforcement limitless overtime; opportunities for promotion; and opportunities to become involved in illegal activity while using the claimants as a distraction; depraved entertainment; and targets. Each day the saga and parts of it are carried out by various Private, State, and Federal Actors. This saga also includes FSOs, and other threat groups who have targeted the Plaintiff due to the deliberate leak of his classified information and the record selling gimmick.

The saga involved the torture of the claimants through the perpetration and carrying out of various scenarios. The Plaintiff was deliberately cut off from his children by the state in order to facilitate his torture and suicide using television, radio, and movie programming which used his children as the subjects of gruesome scenarios such as rapes and murders. The saga involves the entertainment industry which includes almost every musician, actor, and production studio in a carefully laid out plot which includes the engineering of songs; movies; commercials; and other media. The state and other entities in collusion have deliberately and depravedly released the claimants whole life story in order to facilitate their defamation, harassment, and otherwise inconvenience to entertain a

sick and depraved society of miscreants most of whom are under the color of law.

The plaintiff is not allowed to have a relationship with a female or sex of any kind as some sick; sadistic game played by actors of the government; citizens; inmates; ect. This is in order to have the plaintiff die alone the last person for him to bed being his ex-wife also known as 'It' who happens to be the same person who had him falsely arrested on three occasions. The amount of attention on me is unreal; nobody would want that attention on him unless they were a superstar such as an actor. The government controls every aspect of the claimants lives without our knowledge or permission by controlling what we see, hear, even who we can be friends with, and even if and when we can have sex. The goal of the State and other authorities is the utter ruin, damnation, assassination of the claimants and other government targets that are falsely associated with the claimants. This company has entrapped the claimants and continue to carry out their injustices on a daily basis.

Every single aspect of the system which is supposed to be impartial and fair has been turned against the claimants. The claimants have been illegally seized since birth to be used in this illegal system of control while causing their ruin, damnation, and deaths. The plaintiff's whole prison & jail experience was calculated in this saga to include his arrest dates; prosecution; the seizure & isolation of his children from him; the denial of the administration of his psychotropic medications; the entertainment used in the television and radio entertainment broadcast into the local jails & prisons; the jails & prisons I was immured in to include the inmates I would meet; the personnel changes; my assaults; eventual assassination; and even the cells I was in.

The government is well aware of this as it designed; implemented; maintains; improves; and studies the populous' reactions to this. This process is also used as discovery. The various actors use this in order to discover facts about who caused this; the who's what's; why's; and when's. This is really a way to make or break certain people, and opportunities to change certain things that are deemed to be changed. This is also a way for the old to stay in power through the disenfranchisement of the young

for their participation or basic training in this to become informants (Spy Kids). Basically, my life in its entirety has been illegal. Therefore, this is really an exercise in deliberate depraved indifference.

The government and the private corporations and actors involved in this will do anything to stop this story from coming out. All of this can be witnessed on the internet; movies; and every other media outlet. I am treated as an illegal human being an inanimate object to be towed with and controlled by outside forces. It is a fact that the music and entertainment of a generation reflect what is going on during said generation. There have also been certain rules set to this; the first of which is that I am not to be acknowledged or interviewed about the crimes committed against me or my children. In that this relies on certain aspects of my history to include my psychological history to simply say that Mr. Perez is absolutely insane not that I have been singled out. These private actors which include multiple radio; television personalities; entertainers; producers of music & movies; ect have had knowledge of this for this whole time.

My life has truly passed me by. The success of my suit relies on the shotty records of my captures; the government's investigation of itself, and others which it simply deny it doing through the myriad of laws written to prevent the government's investigation of itself. Through my attempts to seek redress; plaintiff's refusing to cooperate with this; for the multitude of violations & damages committed & caused by thousands of defendants I am essentially a dead man walking to erase and eliminate any door or way out I may take. This plot uses the fact that I am on parole in order to prevent me from participating in any scenarios as well. Every single angle has been accounted for.

**EXHAUSTION**

283. Jefferson County Jail does not have the proper accreditation or certifications to operate as a Correctional Facility in the State of New York, and has several multi-million dollar lawsuits filed by inmates and Sheriff's Deputies alike. The New York Attorney General's Office had an active investigation into the Jefferson County Sheriff's Office and the daily activities of the Jail itself, please see exhibit 4.5 – (b). The Jefferson County Jail has no formal documented grievance process as prescribed by NY Corrections law, which requires each jail to have a central depository box in which to place grievances, and the grievance process documented in the Jail Handbook. Moreover, New York Corrections Law requires that an neutral part being a grievance officer be assigned to collect and address each grievance separately in order to prevent correctional staff reprisals.

285. The grievance process as with most of the Jefferson County Jail processes do not follow the NY Correctional Law, deliberately in order for the Deputies to arrange and carry out reprisals which include beatings, sexual assaults, mail violations, the release of private information, the denial of medical care, being placed on keep lock, denial of showers; phone use; law library; visits; visits to the classification office, and any other leude; childish; or any other type of disgusting behavior.

286. The grievance procedure in the Jefferson County Jail as it was described to me by several Deputies and inmates during the torturous eight month stay in the Jefferson County Jail which I refer to as a modern day torture chamber is outlined as follows: In order to file a grievance an inmate has to request a grievance form from the POD Officer who then has to receive permission from the Shift Sergeant in order to provide the inmate with a grievance form.

287. Plaintiff requested to file grievances on at least 6 occasions: In August of 2011 after several requests to be administered my psychotropic medications I requested to file a grievance, October, 2011 I requested a to file a grievance after I was denied a transfer to another jail after I spoke to the Classification Sergeant accompanied by my lawyer Ms. Crowley, due to the abuse; denial of medical

care; and the blatant denial to take photographs of my injuries after each of the following excessive force incidents :10-9-11 the first excessive force incident; 1-30-12 second excessive force incident; 2-18-12 third excessive force incident. I also filed a grievance after I was actually placed in Administrative Segregation in March, 2012 due to the fact I was denied a visit to the classification office on several occasions in order to arrange the shipment of my personal property which was being held in booking to my father. These denials were made in order to suit the needs of the corrupt Jefferson County Jail which include identity theft, forgery, the illegal use of federal documents to include passport and dependent military identification card, theft of intellectual property, illegal use of my private information in order to intimidate; harass; defame; damage my children; annoy; and to entertain the inmates; and employees of the rats nest known as Jefferson County Jail.

288. Plaintiff also filed over a dozen grievances after being transferred to the New York Department of Corrections on March 8, 2012. March, 2012 I wrote a letter to the Department of the Inspector General NY Department of Corrections. Plaintiff was placed in Keep Lock Status in March, 2012 in El Mira after being berated by the sergeant of A-block before dinner chow. The plaintiff notified senior members of NYSDOCCS on several occasions about the high levels of danger that myself and my children were deliberately placed in on a daily basis due to the fact that I was made the subject of the program run in NYSDOCCS and the NY Sheriff's Offices in Jefferson County. On May 2, 2012 at my tier III hearing in the basement of Groveland Correctional Facility I notified Captain Kaiser of the 'Program' that I was made the subject of and the danger it poses to myself and children. Please see, 4.9 – (d) the transcript of the Tier III Hearing. Please also examine the tape of said hearing labeled Tier III hearing Groveland Correctional May 2, 2012. Please see section 4.9 Grievances, PG 45 exhibit 4.9 (c) for the details on the grievances I filed while in the New York Correctional System.

289. The plaintiff also notified the Commissioner of Parole Diana Evans of the 'Program' that I was made the subject of in the populace of Jefferson County after my release from Cocksackie Correctional

Facility, exhibit 4.9 – (e). I never received a response to the email at all from anyone at the NYSDOCCS Department of Community Supervision. after

290. The plaintiff even emailed the Department of Justice, please see exhibit 4.9 (f) email to the Department of Justice in reference to the Deliberate depraved 'Program' that I am the subject of inside and outside of prison. I also placed several phone calls to the Department of Justice. The Department of Justice never responded to my emails or my telephone calls, displaying the deliberate and depraved indifference of the government to the situation that only the government would be able to engineer, orchestrate, and perpetuate.

291. Not only did I exhaust all of my administrative options all the way up to include the highest body of Law in the United States being the Department of Justice. I wrote Several letters to the Federal Communications Commission and had several telephone conversations in reference to the depraved 'Coercive Population Control Program' that I and my daughters; family; and friends are the subjects of and how the media namely Radio and Television were being used to manipulate the local populaces against us. Please see exhibits labeled E-1, which contain several letters to the FCC describing the 'Program' and how it is perpetuated. After several letters to the FCC I finally received a call from a supervisor by the name of Oliver Arden dated 10-25-14, exhibit labeled Conversation with Oliver Arden 10-25-14. In this 30 minute conversation I described how the radio stations and television stations were using depraved programming in order to perpetuate the control of the local populace and how it was to perpetuate my death. Mr. Arden stated that there was nothing that the FCC would do due to freedom of speech but that their would be people monitoring the situation. I had at least 4 conversations in total in reference to this program with the FCC.

292. After all of my effort and the phone calls I was told that my complaint was being closed. Subsequently, I received a complaint form after everything. This demonstrates the deliberate and depraved indifference of the government. It took 2 months to have a conversation with a supervisor at

the FCC. After all my effort I was deliberately ignored.

293. The plaintiff has even written the US Supreme Court in reference to this 'Program' and the plaintiff's deliberate and depraved use in the program. I also described the the denials of Due Process that I was suffering in the NY State Supreme Courts, please see exhibit E-2 Return Receipt to the US Supreme Court.

294. Please see my declaration in support of my Civil Rights Complaint which describes the fact that the State was well aware of all of my claims due to all of the legal work that I filed with the NY Supreme Courts; District Attorneys, and the Attorney General's Office see section 4.8 of said declaration. The plaintiff has gone above and beyond the exhaustion requirement due to the claims made herein. The Federal & State government is deliberately and depravedly indifferent to my plight, and I believe that I have demonstrated that fact within.

**4<sup>th</sup> Amendment Violations Illegal Seizure of Human Lives**

295. 6/27/1976 – Plaintiff Eric Andrew Perez was born in New York Hospital Cornell to Joanne Felix and Andrew Daniel Perez.

296. I was then operated on under the guise of a hernia operation; a device was surgically implanted into my abdomen and microscopically attached to my spine.

297. I have two horizontal scars approximately 11/2 inches in length about an inch above my genitals which signifies the fact that surgery was performed on me after my birth.

299. The device's function is so that my thoughts, words, health, and feelings may be transmitted to a remote location.

300. I have been classified since my birth and inception.

301. My illegal seizure at birth triggered several events and plots. I was seized at birth in order to implement this system.

302. I am known as a thing an illegal human being and there are 9 others like me or so the story goes.
303. Due to the fact that I was illegally seized at birth the likelihood that my daughters were is very high.
304. Their was a symbolic seizure of my daughter A [REDACTED] born on [REDACTED].
305. Shortly after her birth while my ex-wife and I lived at 1014 State Street Watertown, NY a man claiming to be a photographer for a baby magazine knocked on our door and took pictures of her on top of an American Flag blanket.
306. The second event that I am aware of took place while I my ex wife and our two children lived at 10606 Kitty Pozer Drive Apt I Fairfax, VA 22030 in 2008.
307. I believe that the babysitter my ex- wife hired was working for the CIA or another government agency, and that she had a tracking device implanted in her.
308. The illegal seizure of my daughter Alexandra Perez is due to the fact that the same members of law enforcement who orchestrated this against me have taken control of my daughter through her mother Lisa [REDACTED] and her grandfather Julian [REDACTED]
309. I have no specific events to site except for the fact that I have seen Lisa on several occasions in Watertown, NY since my release from prison.
310. I believe that it is safe to assume that CO Sandusky has influence over Lisa and my daughter Alexandra.
311. The only way I was able to discover these facts are through my penal experience, namely Jefferson County Jail where the the Sheriff's Office used the Jailhouse as a high tech torture chamber under the direction of unknown Department of Justice released this classified piece of information.
312. The leak of this classified information to several powerful record company and entertainment executives has made the plaintiff the center of a huge entertainment industry scheme to sell records and entertain the masses at the expense of the plaintiff.
